1. Claims 4-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or make obvious an image reading apparatus having a first mode for high resolution reading and a second mode for high gradation reading comprising, in addition to the other recited features of the claim, a generator adapted to generate a driving signal for said reading unit, said signal having patterns which are varied in accordance with said reading modes, wherein a frequency of the driving signal in the second mode for high gradation reading is lower than a frequency of the driving signal in the first mode for high resolution reading, and an accumulation time of each of pixels of the driving signal in the second mode for high gradation reading is longer than an accumulation time of each of pixels of the driving signal in the first mode for high resolution reading; and a converter adapted to convert analog signals from the reading unit to a digital signal having a plurality of number bits, wherein a number of bits in the second mode for high gradation reading is higher than a number of bits in the first mode for high resolution reading.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
